## Profile

I'm a virtual assistant with a background that runs from patient care to running training teams for large accounts. Over the years I've handled admin and scheduling, kept CRMs clean, worked lead lists, and looked after client communication for clinics and service businesses. I pick up new tools fast and keep the day-to-day moving without much hand-holding. My nursing training means sensitive, patient-facing work feels natural to me, not something I had to learn on the job.

## Virtual Assistant & Client Work

### Admin Virtual Assistant

#### Mathnasium of Killarney

- Kept student records updated and booked appointments so the center ran smoothly day to day.
- Checked documents for accuracy and kept communication steady across the team.

### Lead Generation Specialist

#### Showtech

- Built and researched lead lists, then ran live cold calls and email outreach to start conversations.
- Handled follow-ups so prospects didn't go cold and the sales side stayed fed.

### Social Media Manager

#### Edillon Multi-Specialty Clinics · Salon Suites of San Antonio · Spencer's Kitchen

- Ran the social accounts for three US businesses, one of them a medical clinic.
- Planned content, wrote captions, and handled community engagement, with messaging kept appropriate for a healthcare audience.

### Training & Hiring Manager

#### Medical VA Company

- Hired and trained healthcare professionals for remote VA roles.
- Ran onboarding, skills training, and process guidance so new VAs could work on their own quickly.
